Message from the M.D.

"Since our inception in 2015, Affluence LLC has been driven by a single, focused vision: to build a future defined by innovation, excellence, and sustainability. With over a decade of multi-industry experience, we have evolved into a diversified global enterprise that bridges the gap between traditional industries and future-ready technology.

Shahbaz Uddin

Our journey is built on a foundation of trust and global-quality standards. Whether we are developing Ayurvedic wellness solutions through Mushleaf, delivering cutting-edge IT services, or managing complex infrastructure and automobile engineering projects, our goal remains the same—to empower organizations, governments, and industries with scalable and reliable solutions.

As we continue to expand our strategic presence across India, the UAE, the GCC, and Europe, we remain committed to our strict operational workflow: Discovery, Strategy, Execution, Quality Assurance, and Delivery. This ensures that every project we undertake reflects the premium standards our partners have come to expect. We look forward to exploring new opportunities and driving global progress together."

Affluence Group

Projects & Operational Success

While the group handles a diverse portfolio, its projects generally fall into the following specialized categories:

- **Infrastructure & Fabrication Projects:** Large-scale initiatives involving civil and electrical works, as well as specialized vehicle fabrication.
- **Technological Initiatives:** Implementation of software solutions, comprehensive digital assessments, and the establishment of BPO (Business Process Outsourcing) operations.
- **Engineering & Customization:** End-to-end automobile engineering projects, including high-end vehicle customization, repairs, and professional painting.
- **Industrial Machinery:** The supply and setup of specialized thermoforming machinery for industrial applications.
- **Global Trade Projects:** Facilitating the international trade and movement of herbal raw materials, commodities, and electronics across Asia, the Middle East, and Europe

Project Management Methodology.

To ensure premium standards and long-term performance, every project undertaken by Affluence LLC follows a strict, results-oriented five-step workflow4:

1. Discovery: Initial research and requirement gathering.
2. Strategy: Strategic planning and solution design.
3. Execution: Technical implementation and project build.
4. Quality Assurance: Rigorous testing and compliance checks.
5. Delivery: Final handover and ongoing support
